Here's what it's about: **My Pendant** utilizes specialized quantum physics, geometry and vibration harnessing technologies to help synergize the power of the human body's bio-energy system and allows it to run with optimum performance. Known as chi, or life force energy in some cultures, it runs through meridian points in our body. **My Pendant's** technology actually helps to repel interference frequencies that block the free flow of this energy throughout the body. Similar to upping the watts in a light bulb... **My Pendant** helps to instantly and dramatically increase the connectivity, flow and communication of your energy system!

Wear My Pendant...

It has an energy that gives your body the resource it
needs to do what the body was created to do!

Testimonials:

I had been dealing with a thumb joint issue for over 6 months. It was painful, stiff, and "clicked" when I bent it. In less than one week of wearing the pendant, it was practically back to normal. ... My lower back was hurting for months and trips to the chiropractor gave only temporary relief. Now my back no longer bothers me, and I can get up off the couch, straighten up and walk right away! ... Also I do not take sinus medication any more...they have cleared up! I have been so impressed with the results of wearing the **My Pendant**; I got everyone in my family to buy one! ~Debbie M., Florida

I get up every morning and swim laps in our community pool. I worked my way up to 20 laps, but was pretty tired by the end. Now I stop swimming because I have to get to work. I just don't get tired! Also I have been able to do more pull-ups which really surprised me! This was all after just a few days of wearing **My Pendant**! Very impressive! Dale K., Florida
